## Golisano Library TV Policy

The selection of channels available for display on the monitors in the Study Café is determined by Student Life. From the list generated by Student Life, any channel may be selected for viewing.

Consistent with Library acquisitions procedures, Librarians determine an overall viewing schedule. In setting the schedule, factors considered include: scheduled programming representing a variety of viewpoints (especially in the presentation of the news), class needs and Christian worldview. Closed captioning will be used when available. Requests to alter the regular schedule can be submitted to the Library Faculty for consideration during their monthly meetings.

Requests can be made to alter the set schedule for special occasions such as political elections, Presidential addresses, sports events, religious services, breaking news, weather emergencies, etc.

The TV's remain off during academic breaks and summer, unless a patron requests to have them turned on.
